

St. Mary SART Meeting

You have been identified as Community Based/Non-Profit Leader in our High Desert community. We are all concerned about the high risk of sexual assault and domestic violence among the people we serve and share the goal to reduce these events and promote healing.

We invite you to collaborate with Providence – St. Mary Medical Center’s newest programs, the Sexual Assault Response Team (SART), to build a healthier High Desert together.

The work is hard and we are honored to do it together.

Please join us

Monday, November 4, 2024
